PREFACE

THE GATEWAY OF EASTERN NORTH CAROLINA.

By the Chamber of Commerce.

The U. S. Census of 1890 gave Rocky Mount, N. C., a population of 810. The census of 1900 showed 2,937 people, and the census of 1910 shows a population within the corporate limits of 8,051, a gain of 274 per cent. during the decade just past. This record is not equalled by any other North Carolina city, and is surpassed by but few in the United States, and by none in the older-settled sections of the country like North Carolina. The 1910 census of Rocky Mount does not include the mill town of the Rocky Mount Mills, nor does it include Boonetown, Germantown and the greater part of the Happy Hill settlement, all of which claim to be and really are integral parts of Rocky Mount proper. Including the whole city, the population easily exceeds 12,000.

Comment on this phenomenal growth in population is unnecessary, the plain facts speak with convincing eloquence.

Twelve years ago the taxable property in Rocky Mount was assessed at \$759,143.22; in 1910 \$3,808,804.00, showing an increase within the past twelve years in property values of over 400 per cent. Certainly these figures speak for themselves.

In 1900 the postoffice receipts of the city amounted to \$5,500.00. In 1910 they amounted to \$19,409.59, an increase of nearly 300 per cent. within ten years. In 1900 the number of money orders sold at the local postoffice was about 1,000. In 1910 the number sold was 30,197, an increase of 2,900 per cent.

In 1890 the bank deposits of Rocky Mount amounted to \$90,000.00, in 1895 to \$175,000.00, in 1900 to \$212,000.00, in 1905 to \$444,000.00, and in 1911 (January) to \$1,000,000.00, showing a growth in ten years of 400 per cent., and a gain within five years of over 100 per cent. It will be noted, too, that this great growth has been regular for twenty years, due to rapid and substantial business development. The total resources of the city banks in January, 1911, are a million and a half.

THE STREETS.

During the past ten years some good street work has been done. Bituminous pavement has been laid on Main street from near the passenger station to Thomas street, a distance of three long city blocks; also on Washington street (which runs parallel with Main) for two blocks, also on Tarboro street and Sunset avenue, which cross Main in the busiest section. Main street is unquestionably the broadest business street in the South, if not in the country, and the business section at the intersection of Main, Washington and Tarboro streets and Sunset avenue would do credit to a town of fifty thousand people. In addition to the bituminous the city has several miles of beautiful macadamized street, broad and level as a floor. The street running to the Rocky Mount Mills town at the Falls of the Tar is one of the prettiest driveways in Eastern Carolina. Broad cement sidewalks are on all the business streets and in the principal residence sections.

A CITY OF BEAUTIFUL RESIDENCES.

It has been a matter of much comment by traveling people and visitors that no other town is known, of like size, that has as many beautiful

and costly residences as Rocky Mount. It is perhaps well to state in this connection that the percentage of people owning their homes in this city is very large, and is growing larger each year. Two efficient and well-conducted building and loan associations are doing a great part of this work, as well as the savings banks, which furnish the people an opportunity and an inducement for saving.

ITS HISTORY, LOCATION AND ENVIRONS.

Twenty years ago Rocky Mount was a village of 800 inhabitants, sleepy and content under the old land and agricultural regime prevailing at that time over the greater part of the South. The soil, always unusually fertile, had itself scarcely begun to yield the wealth that it is now pouring out in such abundance. The production of tobacco, now a great industry, was then only being introduced into this section. The contrast between the town of that day and the Rocky Mount of 1912 is amazing. The population is over ten times as great. Manufacturing industries, employing hundreds of people at good wages, rear their heads where then was the open field or the old field pine. Asphalt streets as smooth and level as a frozen lake, now thronged with the rush and hum of modern commerce, confront the visitor where twenty years ago the "general merchant" dozed in the front of his store, facing a mud-hole. A modern electric lighting plant, owned by the city, makes Rocky Mount one of the best lighted towns of its size to be seen anywhere. Water works, also owned by the city and constructed on the most advanced sanitary principles, add to the convenience of the citizens. Tall office buildings, the ground floors occupied by strong financial institutions, rise from the broad cement sidewalks, monuments to enterprising spirit and the faith of investors.

As regards its railroad situation, Rocky Mount is on the main line of the Atlantic Coast Line Railroad, midway between Norfolk and Wilmington and Richmond and Florence. This road was formerly the old Wilmington and Weldon Railroad, built in 1840, one of the first railroads in North Carolina. Rocky Mount is also the terminus of the Spring Hope branch of the Raleigh and Albemarle and of the Norfolk and Carolina one must nearly always go by way of Rocky Mount, the city has each day. Here is the home and junction point of the traveling men, and on account of the fact that to get anywhere in Eastern North Carolina one must nearly always go by way of Rocky Mount, the city has acquired the name of "The Gateway of Eastern North Carolina."

The beautiful Tar river, winding about the city, through the fertile plains, is famed in song and story, and "The Falls of the Tar," just to the north of the city, with their lovely surroundings, form one of the prettiest natural scenes in the South. Here the city purposes to have in the future an unrivalled playground for the young and the old and the weary.

Rocky Mount has just begun to grow. During the decade now on nobody will be satisfied with merely the largest percentage of growth of any town in the State as during the past decade—we must have the largest growth in actual numbers of inhabitants. The newly organized and aggressive Chamber of Commerce, backed by every progressive citizen, will be a great factor in this.

The agricultural section around Rocky Mount is hardly excelled in the world for richness of soil and the variety of products that can be grown and are grown successfully. Rocky Mount is a common market of note, one of the largest leaf tobacco markets in the State, and a big shipping point for the products of the truck farm. The soil is admirably adapted to the growth of cotton, tobacco, oats, corn, wheat, peanuts, alfalfa and almost all kinds of grasses. Potatoes yield prolifically. There are no floods and no droughts. The crops are sure.

The improvements and fine condition therefore of the country round about the city are no less notable than those of the city itself. The level land, with a good clay subsoil, bearing its abundant fruits of labor, and dotted with elegant farm houses, with telephones, automobiles and other

modern conveniences, peopled by a sturdy, industrious and progressive population, constitute one of the city's most valuable assets. The cultivation of the land is done carefully and intelligently with the most improved farming utensils and machinery. Stock, dairy and truck farms yield golden profits, and here is found some of the finest blooded cattle to be seen anywhere. And yet the country is conscious that it is yet in its earliest morning, and the farmers, improving in skill and intelligence each year, raising a "crop" of boys educated in practical agriculture, continue to eagerly seek for other means of improving their farming methods, utensils and the land. The future holds glowing promise.

And in the center of this, one of the fairest and most bounteous lands created by the Almighty, populated by a people declared by the historian to be "the freest of the free," who have just now learned to apply their intelligence and honor to commercial affairs, lies Rocky Mount, the energy-panoplied young giant of the east, already North Carolina's fastest growing city.

THE BEST GOVERNED CITY IN NORTH CAROLINA.

The fame of Rocky Mount as a well-governed community, one whose business affairs are administered in a business way, has been well established ever since the city was a village. No graft or scandal, no whimper of dishonesty or incompetency, has ever marred the white record of the municipal government. Those not familiar with the facts and circumstances have sometimes marvelled at Rocky Mount's unusual good fortune in this respect. But the answer is simple when you know it. It is this: the best, broadest and most capable business and professional men of the city have never thought it beneath them to take an active part in municipal politics; yea, more, they have recognized it to be their duty as good citizens to see that the government be clean and economical, and have been willing to personally shoulder their part of the responsibility. The city, therefore, has been in good and capable hands for the best element can always govern, if it will.

THE CHAMBER OF COMMERCE.

It has been indeed fortunate for Rocky Mount that its citizens early recognized the great importance of concert of action; and it is to this fact that much of the city's extraordinary growth and development must be attributed. It was the good fortune of the community in the beginning to be settled by men of strong and broad-gauged ancestry, whose natures were too big for them to be blinded to the interests of the city by their own private individual affairs.

The officers of the Chamber of Commerce are now as follows: President, R. B. Davis, Jr. (cashier First National Bank); Vice-Presidents, F. A. Hampton (attorney at law), Dr. M. R. Braswell; Secretary and Treasurer, J. W. Aycock (cashier the Planters Bank); Business Manager, F. A. Hampton Executive Committee—J. W. Hines, J. W. Aycock, W. S. Wilkinson, R. B. Davis, Jr.

The offices of the Chamber are in the Phillips Building. A postal card will bring literature and a full exhibit and explanation of what the city has to offer to any one who makes inquiry. Free factory sites and other substantial inducements are offered to manufacturing enterprises. Address F. A. Hampton, Business Manager.

THE SCHOOLS OF THE CITY.

In the determined and unremitting building of the city Rocky Mount citizens have not overlooked the fact that one of the corner-stones of the structure must be adequate educational facilities for their children. The public schools of the city are institutions in which every loyal Rocky Mounter takes the deepest pride.

A conservative estimate would fix the value of the public school buildings of the city at this time at nearly \$60,000.00. The past year the number of students attending the white schools was approximately 1,000.

Nor have the people of Rocky Mount forgotten their duty to the colored children. A convenient and commodious building has been provided for the negroes. The enrollment of the colored graded school the past year was nearly 400.

Rocky Mount is thus able to offer prospective residents educational advantages for their children that should satisfy the most particular. And no fear need be entertained that as the city grows larger the school facilities will keep step; for Rocky Mount is building for the future as well as the present.

A GREAT RAILROAD CENTRE.

Among the railroad centres of North Carolina, Rocky Mount ranks first. Thirty-eight passenger trains and sixty freight trains enter and leave the city every day. The number of freight cars handled to and from Rocky Mount reaches 2,000 per day. The engines and crews of the Atlantic Coast Line trains are made up and changed here, and the cars coming from different points are classified here and put in solid trains and sent on to their various destinations. Here also at South Rocky Mount are located the great repair shops of the Atlantic Coast Line system, and the second largest yards in the United States.

The approximate number of employees of this railroad system at Rocky Mount is as follows:

South Rocky Mount yard, in transportation department, including yardmasters, yard conductors, switchmen, yard clerks and others.....	241
Number of employees in offices at Rocky Mount.....	50
Number of employees in shops	1,300

Total 1,591

When it is considered that a large proportion of these 1,591 employees are high-salaried officers and employees, and the remainder skilled workmen drawing high wages, it can readily be imagined what a large pay roll is here distributed by this railroad system. It amounts to approximately \$1,000,000.00 per year.

ROCKY MOUNT PUBLIC WORKS.

As has been said, Rocky Mount owns its water, sewerage and electric lighting system and works. And, further, its electric lighting plant alone shows a profit at the end of the year just past of several thousand dollars, after deducting charges at full rate for all the current used by the city. So, as is the case with other departments, Rocky Mount Public Works are conducted on sound business principles and methods. It should be considered, too, that the profit above referred to has been made, while charging a light rate much less than that prevailing in other cities of similar size in this State.

THE CHURCHES.

Rocky Mount is emphatically a church and church-going town, and has some of the most creditable church edifices in the State. The church membership is large in proportion to population, and the greater part of the members are active in church work and worship. While the religious spirit is dominant in the town, it is a broad and liberal spirit with regard to denominationalism. Almost all religious faiths are represented in the city, and tolerance is the rule, all churches working in harmony and co-operating to as large an extent as possible.

THE ROCKY MOUNT ROAD DISTRICT.

Rocky Mount is justly proud of her good roads, especially within a radius of five to ten miles from the city. These roads, built of sand and clay, are the envy of the surrounding towns, and maintain their excellence through all sorts of weather.

The Evolution of a Great Idea

Its Stupendous Value to Humanity is being Daily Demonstrated.

The **PSYCHOMOTOR** is a simple mechanical device linking thought to material expression in a way to make leisure hours a source of delight and profit.

Like the Typewriter, the Telegraph and the Telephone, it serves a purpose. It meets the logical requirement of a visible and objective assistant to mental and physical realization.

It is applicable to every phase of human life and expression.

It is an integral part of **THE SHELDON LEAVITT METHODS**.

For the Ill it is more Curative than Medicine; for the Unhappy it is a Wellspring of Joy, and for the Unsuccessful it is a help to Better Things.

It is a means of curing many a heartache, removing many a pain, giving strength to the weak, courage to the fainthearted and prosperity to the poor.

It is a boon to everybody.

We shall be glad to tell you about it.

Address **MAGNUM BONUM ASSOCIATION**, 4661 Lake Av., Chicago.

Eyeglasses Not Necessary

Eyesight Can Be Strengthened, and Most Forms of Diseased Eyes Successfully Treated Without Cutting or Drugging.

That the eyes can be strengthened so that eye glasses can be dispensed with in many cases has been proven beyond a doubt by the testimony of hundreds of people who publicly claim that their eyesight has been restored by that wonderful little instrument called "Actina." "Actina" also relieves sore and granulated lids, lrlts, etc., and removes cataracts without cutting or drugging. Over 95,-

000 "Actinas" have been sold, therefore "Actina" is not an experiment, but a reliable method of treatment.

"Actina" can be used by old and young with perfect safety. It is impossible to do harm with one. Every member of the family can use the one instrument for any form of disease of the Eye, Ear, Throat or Head. One will last for years, and is always ready for use. It will be sent on trial, postpaid.

If you will send your name and address to the Actina Appliance Co., Dept. 218-N, 811 Walnut Street, Kansas City, Mo., you will receive, absolutely FREE, a valuable book—Professor Wilson's Treatise on Disease.

Fine Crops of Tobacco

can be raised if the ground is properly prepared before setting out the plants, and you liberally

Use

Virginia=Carolina

High-Grade

Fertilizers

Then you should nourish the crop at frequent intervals during the growing period with the same plant food. Work well, being careful to feed the crop with only Virginia-Carolina Fertilizers, made especially for tobacco. This will insure a big crop of fine, high-grade tobacco that will yield big money.

Profitable farming is fully explained in our new free FARMERS' YEAR BOOK, or almanac, and it is yours for the asking.

SOME OF THE MANY REASONS WHY
IT PAYS TO TRADE AT

J. H. DANIEL'S.

To begin with, you have the most complete stock to select from in the city.

You have the most painstaking sales-people to look after your wants.

And last, but not least, we sell the same merchandise for less money; yet we candidly believe that we carry exclusive lines of better goods than are elsewhere shown in Rocky Mount.

A visit to our store will convince you of these facts.

Come where you can shop to the best advantage, as it pays to shop with

Popular Educational Food Campaign

Free: Four Booklets Which Have Taught Many People to Cure Themselves.

A university student writes from Lincoln, Nebraska: "I have confidence in this system. It has relieved an unsightly skin and mental inertia through the valuable suggestions and hints in your four booklets. There is a mine of practical hints in them; enough to convince a sceptic were he to stick to the rules faithfully and give it a trial."

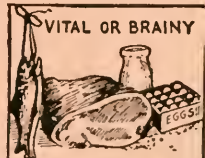

"Your little books eliminated chronic catarrh from my system in about three weeks. *To put it weakly, I was astounded.* I know now, that butter, eggs and rich cream caused the trouble. I thank you for your knowledge and hope to learn more of your system in the future."

Different Classes of Foods Cause Different Diseases.

I have produced in myself at will from time to time such complaints as rheumatism, catarrh, fevers, kidney trouble, blackheads, sores, dandruff, etc., by eating different classes of foods to excess, proving that the waste from each class of foods produces an entirely different disease. For instance, eggs, cream, butter, cheese, milk and salt are mucus-making foods which produce catarrh. Starch and eggs (paste-making foods) in wrong combinations congest and produce headache, dullness, brain fog, etc., while lean meats, green vegetables, and fresh, juicy fruits do not.

G. H. Brinkler, Food Expert

BLOOD PURIFIERS OR LAXATIVES

Correct Combinations of Foods Cure Diseases.

I have always cured the above-named symptoms in a few days or weeks by returning to a correctly combined diet. The experiments have been fascinating and the results underlie success in life.

People Write:

"My brain power and general efficiency have been about doubled this year by selecting brainy foods. I have made a fortune in real estate and the credit is honestly yours."

"The government should investigate and teach the Brainy Diet System for the good of the nation."

"The hints in Booklet No. III, on foods for curing congested liver, nourishing the brain, etc., are worth untold dollars, although the books are free."

LONGEVITY

**NO FOODS SOLD
NO FASTING
NO EXERCISES**

A thin man, after being out of work nearly a year through weakness, was restored in three weeks to hard work as a carpenter at full pay. In such cases the change from a clogging, death-producing diet to energizing foods caused a literal transformation.

Another patient, deaf in the right ear, owing to a discharge caused by an excess of mucus-making foods (cream, butter, cheese, etc.), was completely cured of deafness and catarrh by taking correct combinations of suitable foods.

A case of kidney and bladder trouble of ten years' standing was saved from a surgical operation, and the objectionable discharge cured within ten days, because the loss of control was due entirely to the constant irritation from certain irritating foods and drinks.

Brainy Diet

A chronic sufferer, weighing 415 pounds, unable to exercise, took correct combinations of ordinary daily foods and reduced over 150 pounds (in public life, under many witnesses) gained strength with firmer flesh, and lost rheumatism.

Turkish Baths at Home

Do Wonders

Rheumatism's
Waterloo

There is internal body-waste always going on. An over-accumulation of this poison means nerve-exhaustion. Drugs cannot drive it out. Take a scientific Turkish Bath at home, at cost of only 2c a bath, by means of the

Robinson Turkish Bath Cabinet

and feel the rapid change in your condition inside of 30 minutes. It has produced astonishing results in men and women, nervously exhausted and afflicted with rheumatism, blood, stomach and other troubles. Prominent physicians in many cases are abandoning drugs for this new treatment. The Robinson Bath Cabinet is the only scientifically constructed Bath Cabinet ever made—a model of ingenuity. Sold by dealers or sent direct at prices to fit any purse. Send for illustrated booklet of astonishing facts, free, with full information. **OUR \$2.00 BOOK SENT FREE.** It represents the best work of some of our greatest minds on a subject of vital welfare to all human beings. "The Philosophy of Health and Beauty" was prepared under the supervision of Prof. Robinson. This offer is for a limited period only. Send today.

Robert Louis Stevenson

In Six Volumes

FREE

Six Volumes

121 Novels, Poems, Essays, Stories. Six Big Volumes. Printed from New and Perfect Type on White, Opaque, Wove Paper. Handsomely Bound in Red Cloth, Titles in Real Gold Leaf.

Robert Louis Stevenson is celebrated the world over as the author of "Treasure Island," "Dr. Jekyll and Mr. Hyde," and other unparalleled masterpieces. Each story and novel delights expectant youth and critical maturity alike. These things you know. Scarcely an American home but contains some illustrated motto or verse from this master's pen.

These Six Volumes, handsomely bound in red wove cloth, with titles in real gold leaf, contain the writings that made Stevenson so justly famous. One hundred and twenty-one novels, essays, poems and stories are included, and each volume is richly illustrated with a photograph of Stevenson at some stage of his romantic career. Please note particularly the table of contents opposite.

Our Free Offer: To secure—FREE—this splendid six volume Medallion Edition of Robert Louis Stevenson's Works, you need merely forward your subscription to *COSMOPOLITAN* for the next two years. "The Turning Point," the great serial by Robert W. Chambers, illustrated by Charles Dana Gibson, and "The Price She Paid," by David Graham Phillips, with illustrations by Howard Chandler Christy, combined with other notable features by Jack London, Gouverneur Morris, Elinor Glyn, E. Phillips Oppenheim and other celebrities, make *COSMOPOLITAN* "America's Greatest Magazine." It is the one magazine you cannot afford to be without.

50 Cents Is All: To secure these six volumes of Stevenson's works *FREE* you need merely fill in the coupon, enclose 50 cents and mail it to-day *at our risk*. The books will be expressed to you at once all charges prepaid. After you receive them you have five days in which to examine them and make sure that you want to keep them. If they are not exactly what you expect, you are to return them *at our expense*—and your 50 cents will be promptly refunded. If they are what you expect, you agree to forward us \$3.10 in ten days, thus making your total payment \$3.60. The twenty-four issues of a two years' subscription to *COSMOPOLITAN* would cost you just \$3.60 if purchased at the newsstand, so that in this offer you secure the books practically for nothing. You examine the books **AT OUR RISK**. Be sure to fill in the coupon and mail it to us to-day.

No Moonshine—Just Plain, Unvarnished, *Cashable* Facts About Poultry Profits

If there ever was a straight-from-the-shoulder, look-me-in-the-eye and hold-up-your-right-hand statement of facts, you'll find it in JOEL M. FOSTER'S book, "THE MILLION EGG FARM."

Mr. Foster owns the famous Rancocas Poultry Farm, and in his book he tells his methods for producing upward of *eleven hundred thousand eggs a year* and piling a clean annual profit of close to \$20,000.00

We *know* that the statements in this book are cold facts—because we proved them by an exhaustive investigation before publishing THE MILLION EGG FARM for distributing to Farm Journal subscribers. We have sold many thousand copies of this book, and we *know* from the actual experiences of those who have read and followed it, that these facts can be profitably applied by *you*—whether you have a dozen hens on a back lot, or number your fowls by the thousand.

Up in Scranton, Pa., a clerk, Robert Liddle by name, seeking to better his fortunes, read this book, followed its directions, and at last reports was cleaning up \$17.00 a day profit on eggs.

In the light of such experiences, we *know* that farmers need this book. That's why we publish it and are trying to put it into the hands of every poultry owner. To *serve* the Farmer is the whole purpose of FARM JOURNAL. To *serve* him with sound advice regarding every branch of farm work.

To enable him to profit by the labor-saving and money-making discoveries of other farmers. To serve the farmer's wife with helpful suggestions. To serve the farmer and his entire family with clean, wholesome entertainment.

FARM JOURNAL has its own way of presenting facts in crisp, interesting, readable form. It is the National Farmer talking in a human, understandable, sympathetic way to the individual farmer. It is educational without being tiresome. It is bright, cheerful and *clean to the core*. Fakes, quacks and all other swindling advertisers are forever barred from its columns.

Upward of four million readers welcome its monthly visits. Two or three copies will make *you* a confirmed reader of Farm Journal. You *need* this paper and you *need* the MILLION EGG FARM book. None of us ever know so much about our work that we can't learn any more.

The Million Egg Farm By Joel M. Foster, and Farm Journal Monthly for four years

Both for One Dollar

To take advantage of this combination offer of the paper for four years and the book at once, postpaid, for a dollar, will be a wise and thrifty thing to do. Do yourself and family the favor of sending in the dollar to-day. Use the coupon.

A Rancocas Unit at Work

Mail \$1.00 To-day and we will send you the FARM JOURNAL for four years and our wonderful money-making book, "The Million Egg Farm."

ABSOLUTELY FREE.

The City Directory is the most effective and most economical method of reaching all the people all the time. Those who buy without looking at the list of those who sell do themselves great injustice. The classified lists in the Business Directory form the best Buyers Guide on earth. A modern up to date method of getting what you want. Polk.
